TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.

Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof.

THE ENGLISH RAILWAY SYNDICATE.

If the important dispatch which we published a few days ago respecting the formation of a London syndicate to build the Canada Pacific railway be true, an opportunity presents itself to the Canadian government, whilst stipulating for the active prosecution of the main line, to so arrange matters as to sweep away every point at issue between the Province and the Dominion. Canada owes British Columbia a line of railway from Victoria to Nanaimo. The line was adopted by an order-in-council and proclamation in 1872; secured by solemn treaty in 1874 and ratified by Act of the local House conveying the lands 20 miles on either side of the line the same year. The cost of the line would not exceed $4,000,000, and if the coal and agricultural lands on either side are not sufficient in extent to pay for its construction there are millions of acres in other parts of the province which, added to the money subsidy, would amply compensate the syndicate for the outlay. The lands of the northwest territory are in the hands of the Dominion government—as the lands of this province will be after the next session of the local House—and wherever lands of sufficient value do not exist contiguous to the line of road they may be taken elsewhere. Under the arrangement which we hope soon to see in practical operation between the Dominion and the province, a similar right would be secured; and if the land on either side of the island line should not come up to the standard of fair market value, land in other parts may be taken to assure ample compensation to the syndicate that might take the road in hand. Moreover, there is every prospect of an island line becoming at once a profitable investment. The traffic over it would be heavy from the start and must constantly increase because of the facilities afforded shipping at Esquimalt; and upon the completion of the mainland line a ferry from Burrard Inlet to Nanaimo would transport goods across the "silver steak" and place Esquimalt, the chief commercial port, the naval station and the site of the drydock within easy reach of overland as well as local traffic. If the Victoria government have discharged their duty these points are in the possession of the Dominion Government; the ministers now in London have gone there with the details of an Island railway comprised in their scheme; and upon the reasonable basis of land compensation they are prepared to settle all matters at variance between the Atlantic and the Pacific by the early commencment and completion of the Island railway. It is land the English syndicate desire more than money; and the greater the number of miles of line they may build the more land they will secure. We hope that this important subject has been recently urged upon the Dominion. It could not be brought too prominently to their notice because it is thoroughly practicable, because the Dominion is obligated by solemn treaty to build it, and because the formation of the syndicate presents a looked for opportunity to discharge the obligation on most favorable terms.

THE ASSIZES.

We return again to this subject for the purpose of urging on the local government the importance of immediately issuing a proclamation convening assize courts in various parts of the country. Nearly a year has elapsed since a regular assize court was held at any point on the Mainland, and it is seven months since the last prisoners were tried at Victoria. During nearly all that period the gaol has remained crowded with prisoners awaiting trial. A youth of tender years has lain there since last December. Several Chinese and others supposed to have been concerned in murder, arson and stealing, with the witnesses, have remained in custody; and many persons committed for trial since the New Year dawned are in confinement. Many civil cases on Island and Mainland cannot be heard. The public at large and the legal fraternity are put to serious inconvenience and loss in consequence of this extraordinary condition of things, to which the term disgraceful would be a mild one to apply. The country has recently witnessed the hearing of a most important constitutional case before the full bench of the Supreme Court. It involved the validity of a special assize court held at New Westminster in March last for the trial of four outlaws. At an enormous cost to the revenue those trials have been declared illegal. The decisions of the learned judges form a text-book for the attorney general and instruct him as to the course to be pursued by him in future. With the rule laid down for his guidance why does the legal adviser of the crown hesitate to direct the issuance of a proclamation? The entire legal machinery of the country is at a deadlock and nearly every class suffers from the effects of the stoppage for which there is not now and never has been offered a reasonable excuse.

THROUGH TO YALE.

As the prospect of the establishment of a direct line of steamboats between Victoria and Yale during the present year are slight it would be well to inquire if the companies that now control the traffic between the two ports could not greatly improve the service and at least expedite, if they do not cheapen, the means of communication. Under the existing arrangements a steamer leaves Victoria at 4 or 5 o'clock in the morning and reaches New Westminster about noon. There the freight is landed on the wharf and very little, if any, is sent on by the steamer that leaves New Westminster for up-river at 4 o'clock the same afternoon; but awaits shipment by a boat that leaves a day or two later. The Victoria steamer, instead of starting on the return trip as soon as she has received on board the upriver mails, freight and passengers, does not sail for this port until daylight the following morning. By this arrangement a serious detention is experienced by Victoria passengers as well as by Yale freight. We must be permitted to say that the detention is unreasonable and unnecessary. An arrangement might be effected by which delay would be reduced to a minimum. A steamer could leave Victoria in the evening and reach New Westminster at daylight. Immediately upon her arrival there a steamer might be brought alongside and the freight for up river discharged directly into her, thus saving wharf and other charges. A steamer thus freighted could sail the same day for Yale and way ports, while the Victoria steamer having received on board upcountry freight, passengers and mails, would leave early in the afternoon and reach this port before dark. As we have frequently remarked, we have not been enabled to discover any good reason for an exchange of passengers or freight at any point between Victoria and Yale, but if that system is to be continued for the remainder of the season we submit the plan we have mentioned as a good substitute for the arrangement now in force.

A GAS EXPLOSION.

The Decided Sensation Caused by a Careless Workman in London.

NEW YORK, July 9.—A *Herald* London special says: A terrible explosion of gas occurred this evening at 7 o'clock in a street in the vicinity of Tottenham Court road. For some minutes gas was noticed escaping in large quantities and a man was sent to examine the pipes. He applied a light and a series of explosions occurred, commencing at the upper end of Charlotte street and running down Charlotte and along Percy, under Tottenham Court. There were six distinct explosions in various parts each forming a deep trench from eight to ten yards long. From the large traffic prevailing in this densely populated neighborhood, it is surprising that the list of casualties is not larger than at present reported. There are two persons killed, two fatally wounded, and thirty more or less injured. From one trench sixteen persons were extricated. Four hundred houses were injured and one demolished, and many having large rents are rendered untenable. All the windows along the line of the explosion were demolished, the chimney pots thrown down. The shock was felt as far up as Hampstead Road. A dense volume of gas issued from the trenches, and the air was charged almost to suffocation. The performance of "Forget Me Not" at the Prince of Wales Theatre had to be suspended. The streets and buildings in the neighborhood were plunged in total darkness. Vast crowds flocked to the scene of the disaster, and a large body of police and firemen were on duty. An eye-witness, who was standing at a door in Charlotte street says he noticed a cloud of bricks and stones shoot up a hundred feet into the air, followed by a loud report, which rolled down the street like artillery fire. He observed people stagger and fall, and the ground shook as if there was an earthquake. The workman who applied the light in search of the leak was blown a great distance away and killed.

Exports to the United States.

Appended will be found a statement of exports from this province to the United States for the quarter ending June 30th, 1880:

Coal (56,966 tons)	$198,570 25
Furs and Skins	117,183 32
Hides	7,011 00
Miscellaneous	3,624 72
Liquors	3,960 47
Salmon	2,452 50
Oil	807 00
Sugar	575 00
	$334,244 26
Treasure Shipments	$141,789 76
Total	$476,034 02

As compared with the corresponding period of 1879 the exports for the quarter just ended show an increase in value of $71,276. The quantity of coal shipped in the 1879 quarter was 35,587 tons, against 56,966 tons during the last three months, the difference in value being $53,642. There is also an increase in the value of furs, skins and hides amounting to nearly $10,000. The export of salmon, although small, is just double what it was in the 1879 quarter and treasure shipments show an increase of $29,490. In other articles small decreases are apparent. As compared with the quarter ending March 31st of this year the past three months, without taking treasure in consideration, show an increase of $100,144, this large difference being attributable to coal which in the March quarter was $148,714 as compared with $198,570 now, and to furs, skins and hides which in the former period amounted to $77,428 against $117,183 now. The increase in the number of tons of coal exported was 11,527, gratifying evidence that the demand in foreign markets is becoming steadily greater. The increase in treasure shipments alone was $70,823, or in the last quarter the export under this head was nearly double that of the preceding quarter.

THE California capitalists, who have recently been paying the Province a visit, left this port last evening for Tacoma on board the steamer Geo. E. Starr, which was specially chartered to carry the party to that place. From Tacoma they will proceed to Portland and thence to San Francisco. We understand that during their brief stay here they formed highly favorable impressions as to the geographical position of this city and, whilst being thoroughly convinced that it must always be the *entrepot* of the province, expressed decided opinions that it is destined to become 'ere long *the* commercial port of the northern Pacific coast.

ST. JOHN'S CHURCH. — The entertainment was the best ever given there. Everyone was delighted and the *encores* were frequent. We reserve a more extended notice until to-morrow.

WEST SHORE.—Mr. L. Samuels, editor of the *West Shore*, accompanied by Mrs. Samuels, arrived last evening from Portland.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

MONDAY, July 12.

Henry Cowan, a bluejacket belonging to H. M. S. Triumph, was brought up on remand charged with drawing a pistol and threatening to shoot one F. Parks and with using threatening language to special officer Black.

Mr. Courtney appeared for the prisoner.

John Black, recalled, deposed that it was about 11 o'clock at night when he saw the prisoner outside the St. Charles Hotel, but it was not very dark. The prisoner was about 15 paces from Parks when the pistol he held missed fire. The weapon appeared to witness to be a small Smith & Wesson. Witness could swear that his thumb went between the trigger and cartridge, but could not swear that the pistol was loaded. He arrested the prisoner in the St. Charles a few minutes after the affair took place; did not do so at first because he doubted whether he was able to do so without assistance because the prisoner was very violent. Another bluejacket interfered. Witness took hold of the pistol, but another bluejacket named Howse who came to the prisoner's assistance took it away.

Joseph Lovelace deposed that on the night of the 8th inst. he was in the music hall and heard a noise outside. It sounded like someone throwing small pebbles, and thinking it was intended to disturb the performance he went out and on looking at the back end of the building he saw a man standing at the door of the water closet; soon saw a flash and heard a report like the noise made by the explosion of a firecracker; on approaching the man he saw that he had something in his hand which looked like a toy pistol; asked him why he was creating the disturbance, and he said that he did not know that he was. Witness believed the prisoner was the man he saw; witness saw that he was drunk so that he did not have any further conversation with him; about an hour afterwards a disturbance took place between the sailors in the building and constable Black came in to quell it; after the row had been quieted down the young man and another party who witness understood was his brother left the hall; almost directly afterwards witness heard some loud talking and scuffling outside; witness went to the door and discovered officer Black struggling with two sailors; in a minute they separated, and officer Black having blown an alarm several policemen came up and the prisoner was arrested at the request of officer Black.

A number of small cartridges found on the prisoner were here produced.

Cross-examined—Before I came here I was a Government scout and Indian interpreter; was 15 years in the American service; am perfectly acquainted with Smith & Wesson's pistols; they don't make any of the calibre of the cartridge produced; those cartridges are made for toy weapons; they would not penetrate a man's body, if he were clothed, at a distance of 10 feet.

The witness was here re-examined at some length by the Supt. of Police as to the penetrating power of small cartridges. He stated that if one of the cartridges, fired from a pistol similar to one produced, struck a person on the temple it might kill him.

His Honor said the witness seemed to possess considerable knowledge with reference to ammunition and arms. How did he obtain it?

Witness—I began the life of a soldier at a very early age, and have been in the habit of handling firearms ever since I was 15 years old.

Witness here handed his honor for inspection a handsome medal presented to him by command of Gen. Custer for brave conduct.

John Leach deposed that he witnessed the scuffle between the prisoner and Black. The former followed a party of young men as they left the music hall and said something about shooting. Heard Black tell the prisoner that he had a pistol and that he must give it up. Prisoner said he would not and held it between his two hands. Finally he gave it to another bluejacket. Witness saw no shooting.

H. Howse, a blue-jacket, deposed that he was with the prisoner at the St. Charles last Thursday night. Officer Black accused the prisoner of having a pistol and witness told him to give it up and asked him if there was anything in it. Prisoner replied "no." The officer said witness might take the pistol from the prisoner and he did so and threw it over the rails at the rear of the hall. Shortly afterwards the prisoner was arrested.

To Mr. Courtney—I have heard Black state that he could have taken the pistol from the prisoner had it not been for me, but that is false. Black consented to the prisoner handing me the pistol as I had said I would throw it away. The prisoner had plenty of time to get way before he was arrested if he had thought he had done wrong.

J. Parks deposed that he went to the music hall on Thursday night to look for his brother whom he wanted to go home with him. They started for the door and when they got outside the prisoner, who had followed them out, said no — — — — should take him (meaning witness' brother) home and attempted to stop witness doing so. Witness said he would give him in charge unless he minded his own business. Prisoner replied that he would fix witness. They then left. Witness saw no pistol, but had previously heard a noise like firecrackers being thrown against the building.

Mr. Courtney then addressed the Court on behalf of the prisoner and pointed out that to sustain the charge it was necessary in the first place to prove that the pistol was loaded. The evidence of the several witnesses tended to show that it was empty inasmuch as the prisoner had discharged it at the rear of the building. There was no proof of intent to shoot anyone and the case would therefore have to be dismissed.

His Honor said he would take time to consider the points raised and review the evidence and would defer his decision until 11 o'clock to-morrow (Tuesday.)

The case of Alfred Raper, charged with embezzlement by A. B. Gray, was resumed at 2 p.m.

Mr. R. Kean, book-keeper for the plaintiff at Nanaimo, having been cross-examined at some length, Mr. M. Waitt was produced as a witness. After argument by counsel as to the admissability of certain documentary evidence the case was further continued until Thursday next.

A STRAWBERRY Festival will be held in the school-room of the First Presbyterian Church, Pandora street, on Tuesday evening next, commencing at 8 o'clock. Admission 25 cents. *

THE LAND SUBSIDY.—It is 60,000,000 acres of land that Canada conveys to the London railway syndicate instead of 6,000,000 acres.

MR. Schrieber, chief engineer of railway works, is on board the Dakota.

The Cassiar Mines.

Latest advices from these mines state that all is activity, the men being intent on making the most of a short season. Dease Lake opened for navigation on June 6th. As the water of several of the adjacent creeks is not too high a good many claims are being worked. On Defot Creek 65 miners are employed, principally ground sluicing. Two companies have taken out good pay on Mosquito and favorable prospects have been obtained on McDame by A. McLennan and J. Mitchell. A number of prospecting parties are out and one, consisting of N. McArthur, H. Campbell and D. Gardiner, would leave Telegraph Creek for Finlay's Branch of Peace River and the headwaters of the Stickeen. They are well equipped for the season and will take five horses with them. Provisions are plentiful, especially on Dease Creek. The weather recently has been cold enough to keep the creeks in a favorable condition for mining. The Stickeen has been at a good stage all the season for steamboat navigation. The steamer Cassiar is still laid up at the mouth of the river. The new lock-up at Telegraph Creek has been completed and the trail is in good order. Mr. Thibert is prospecting on the Liard.

Railway Supply Stores.

The syndicate who have taken in hand the construction of the Yale-Savona railway have decided to erect and stock stores for the supply of their men with merchandise of every description. Warehouses are in course of construction at Yale and extensive stocks of goods will be imported to fill them. It is expected that most of the goods will be of British Columbian and Canadian manufacture and production.

DIVINE SERVICE held on board H. M. S. Triumph on Sunday morning last was attended by a number of citizens. An excellent sermon was preached by Rev. Mr. Reid, who took for his text the following words: "For if the trumpet give an uncertain sound who shall prepare himself to the battle," 1st Epistle to Corinthians, 14 chap. 8v. The reverend gentleman, having demonstrated in eloquent language the impossibility of victory in war or success in everyday transactions if found in a state of unreadiness and vacillation, urged upon his hearers the importance of preparing themselves in this world for the life to come. As it was with the soldier who awaited the signal to advance and was in a state of readiness so it should be with the Christian when the trumpet sounded to call him away from earthly affairs. In illustration of the advantages arising from being prepared he alluded to an instance which occurred during the first invasion of Britain by Julius Cesar. On that occasion the Ancient Britons, expecting to find the invaders in a state of disorder and unreadiness, advanced hastily under cover of darkness on the Roman camp. The high state of discipline characteristic of the Romans, however, prevailed, for the trumpet, which, on that occasion, gave no "uncertain sound," found every man ready at his post and prepared to secure the easy victory which followed.... The musical portion of the service was highly praiseworthy, the chanting and singing of the hymns showing that the ship's company has been well trained in vocal music.

PUGET SOUND.—A sailor named Janson was kicked by Chas. A. Lafgrun, mate of the David Hoadley, at Utsalady on the 4th so badly that he died next day.... The seal fishery off the northwest coast of Washington Territory has ended for 1880. More men, money and vessels were engaged in the business this year than ever before, and more skins were obtained. The catch is estimated at 5000....All the Indians concerned in the recent murder and robbery on the coast below Neah Bay have been captured and handed over to the law. They confess their guilt and acknowledge further that they intended on the first good opportunity to kill Mr. Baxter and to murder Capt. Waite on the schooner.

PERSONAL.—Capt. M. Griffith, of San Francisco, accompanied by Mrs. Griffith and a party of ladies, returned from Fort Wrangel on Sunday by the steamer Otter. At the latter place the steamer Gertrude was chartered to convey the party up the Stickeen to afford them an opportunity of seeing the great glacier and the grand scenery surrounding it. The visitors were delighted with the trip and speak of the pleasure they experienced during their stay in this province in most elogustic terms. They left for Portland last evening.

THE NEAH BAY MURDER.—It is stated that the Attorney-General of Washington Territory has given it as his opinion that the Indians charged with the murder of an Indian boy at Neah Bay will have to be tried in accordance with their tribal laws, which virtually means that, if they are guilty of the crime, it will be condoned by a potlach of blankets to the relatives of the murdered boy.

FROM THE NORTH.—The steamer Otter arrived in port at 11 o'clock on Sunday morning from Fort Wrangel and way ports, with passengers, 2500 cases of salmon from Inverness fishery, $8,000 in treasure and 75 packages of furs. The steamship California, bound for Sitka, was met in Wright's Sound on the night of the 8th inst.

CONSTANTINOPLE, July 10.—The removal of Isman Pasha from the Turkish ministry of war has produced a very favorable impression and is regarded as indicating a disposition on the part of the Sultan to peacefully settle pending questions. It was at first reported that Isman Pasha and Dervish Pasha, who was also dismissed, were lodged in barracks and would be interned in the provinces; but it has since been ascertained that Isman Pasha will remain in Constantinople as marshal of police. Other ministerial changes are expected.

FRANCE.

PARIS, July 10.—The government seems disposed to suspend the execution of the anti-Jesuit decrees against other religious orders until legal tribunals have decided in the case of the Jesuits. The question of jurisdiction has still to be heard before the tribunal, a mixed body composed of members of the council.

ITALY.

ROME, July 10.—The deputies to-day discussed the bill for the abolition of the grist tax. After a speech by Premier Caniole the chamber adopted a motion favorable to the government and passed to a discussion of the clauses of the bill by a vote of 269 to 128.

AYED DISPATCHES.

ENGLAND.

LONDON, July 8.—In the house of commons to-night, on a motion to go into committee on compensation for the disturbance bill, Parnell said that if, instead of the bill as it now stood, the government had introduced one to extend to the whole of Ireland the Ulster custom, as a permanent enactment, he would have supported the bill; but as it was, it would be necessary to move amendments.

Foster said that the object of the bill was not to punish landlords, but to erect safeguards for the future and to prevent landlords from taking advantage of the existing state of things, so as to get possession of property.

Northcote said that the amendment of the attorney general was a complete change of front on the part of the government.

A motion that the house go into committee was then adopted—255 to 199.

Gladstone, replying to a question by Sir Henry D. Wolff (conservative), relative to the eastern policy, said that the government was very anxious to avoid surprising the country by anything like isolated action.

The house of commons is in committee on compensation for disturbance in Ireland bill. A scene has just occurred. The government having accused the opposition of persistent obstruction, Gladstone said that the state of public business was very grave, but no waste of time would induce the government to abandon measures which they think important.

LONDON, July 9.—In the house of commons in committee this evening Parnell and other members for Ireland persisted in combatting the new clause of the compensation for disturbance bill, although it was before the committee before. A home ruler was called to order for defending the use of violence against certain landlords in Ireland, particularly the late Lord Leitrim. Mr. Mitchell Henry, home ruler, in the course of debate, announced his intention to quit the land league. He said that he repudiated its extreme views.

LONDON, July 9.—It was rumored in the lobby of the house of commons last night that the Marquis of Lansdowne, under secretary for India, had resigned in consequence of being unable conscientiously to support the compensation for disturbance bill in the house of lords, and also on account of being himself a holder of land in Ireland. Lord Elcho, liberal conservative, in consequence of the rumor, asked in the house of commons whether it was a fact that Lord Lansdowne was no longer a member of the government. Mr. Gladstone replied "Yes," whereupon the opposition cheers were renewed.

LONDON, July 8.—In the house of commons to-day Sir Henry Wolff, conservative, asked whether the government had communication with other powers relative to coercive measures in the refusal of the porte to accept the recommendations of the Berlin conference.

Gladstone said that the government's policy continues to be to prosecute the faithful fulfillment of the Berlin treaty.

LONDON, July 8.—There was some panic on Berlin and Paris bourses yesterday owing to an unsteady feeling in regard to the attitude of the porte.

CONSTANTINOPLE, July 8.—At midnight Sunday three transports left the arsenal for Volo and Prevesa with seven battalions of troops, five batteries and a quantity of ammunition. The troops were ordered to disembark stealthily. The disbandment of 400 soldiers in Thessaly whose time is expired has been forbidden.

VIENNA, July 9.—Latest intelligence from Senajenno states that excitement caused by the attempted murder of Hassan Pasha has considerably abated. When Hassan Pasha ordered a general disarmament Eyoub Bey, one of the most fanatical Mussulmen, with several followers, went to him and protested against the measure. Hassan Pasha replied by striking Eyoub Bey with a stick, whereupon the followers of the latter threw themselves upon Hassan and he was taken to Mitrovitza it was thought mortally wounded.

LONDON, June 9.—Delay in bringing forward the Indian financial settlement causes the impression that some large reform is contemplated by the government relative to the liabilities of India

MONTREAL, July 29.—The death of Mr. John Cassels, sr., removes one of Montreal's oldest merchants. Mr. Cassels was born in Denny, Stirlingshire, Scotland, in 1800, and retired from business in 1868.

Yesterday morning Dr. Jenkins announced that the debt of St. Paul's Church, $4,000, had been paid off.

Captain Farrell, of the steamer Corinthian, died this afternoon.

KINGSTON, June 28. — Yesterday Mr. C. Becker, a partner in the firm of G. M. Weber & Co., piano manufacturers, went for a row in a skiff, taking with him his son and daughter. When near Kingston Mills the boy went in bathing, and his father in order to teach him to swim fastened a rope about his body and gave him a tow after the skiff. The rope by some means slipped from the boy's body, and as he could not swim he immediately sank. His father jumped in to rescue him, but as he was also unable to swim both were drowned. Up to a late hour this afternoon the bodies had not been recovered.

OTTAWA, June 26.—News has reached the city of a murder at Buckingham. A man named Heney committed a breach of the peace in that village, and when Constable Morrison attempted to arrest him Heney resisted, and finding that the officer was too much for him drew a revolver and shot him. He then escaped and has not been captured. The wound proved fatal. The Buckingham authorities immediately telegraphed the chief of police to be on the look out for Heney.

PARRY SOUND, June 23.—Parties who visited the wreck of the Waubuno yesterday report that a party from Midland are engaged in trying to turn the hull over, but it is feared they will not be successful, as their tackle is not heavy enough. These parties say there has been taken from the wreck within the past two weeks, through holes in her bottom, about forty barrels of flour, boxes of canned salmon, furniture of the boat, mattrasses, &c. It appears to be evident that a great deal more is covered by the hull than was at first supposed.

OTTAWA, June 26.—A sad fatality is reported from the township of March. Between the hours of three and four of Friday afternoon last a terrific thunderstorm visited the township in the neighborhood of the Camp. Mr. R. Kidd, of March, was returning from the funeral of a Miss Bradley, which had taken place in that locality, and the storm overtaking him on the road he took shelter in the house of Mrs. Sprowle, a widow about a mile and a half above March Corners. His horse becoming unmanageable, young Sprowl a lad of fifteen years with manly generosity ran from the house in the pelting rain to make fast the horse, but, unfortunately, not thinking of the danger, brought the horse to the nearest telegraph pole, to which he was in the act of tying when a heavy flash of lightding struck the pole and killed the boy. When his mother saw the lifeless body of her son carried in she fainted, and it was some time before she was brought round again. It seems as if the fates had singled out this unluckly family, as no later than last winter Mr. Sprowle, the boy's father, was frozen to death.

OTTAWA, June 28.—It is said that a new weekly journal on the plan of the *Economist* will shortly make its appearance, being issued simultaneously in Toronto, Ottawa and Montreal, and devoted to the discussion of national industrial questions—the tariff, trade relations, finance and kindred subjects.

MONTREAL, June 26.—A meeting of the Finance Committee of the City Council was held this afternoon for the purpose of opening the tenders for the five per cent. loan. Nineteen were received, that of the Bank of British North America for $100,000 at 1½ per cent. and $100,000 at 2 per cent. premium being accepted. The aggregate amount of offers footed up $1,785,000, nearly nine times the sum required.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
Meerschaum any man can carry;
In fact take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

TESTIMONIAL.

GRANVILLE, BURRARD INLET, June 18th, 1880.

MRS. CORDINER,
Teacher of Granville Public School.

DEAR MADAM:—WE, THE UNDERSIGNED residents of Granville and Hastings, having heard with much regret of your intention to relinquish your position as public school teacher, take this opportunity of respectfully urging upon you the reconsideration of such determination.

We have admired your assiduous, painstaking devotion to your work—a work at all times sufficiently onerous and trying—the favorable results of which have been repeatedly recognized at the public school examinations, and no less so in the more exact test of actual progress which we have witnessed in the uniform proficiency of your pupils; and furthermore, we also regard very highly the *methods* by which such favorable results have been attained in the wise combination of firm discipline with judicious kindness, which invariably secures success.

Therefore we are extremely desirous that you should continue to occupy your present position as teacher of Granville public school, and so carry on the good service to the public in general and the parents in particular, which you have so well performed in the past. Praying you to reconsider any determination which you may have made to the contrary, and hoping you may consequently comply with our sincere wishes in this matter,

We remain, yours respectfully,
